**C. E. BURRIS**  
JEWELER AND OPTICIAN 134 WEST CENTER ST.

## "KEEP OFF THE GRASS"

New Order Issued at Union Station.

## NEWSBOYS OF MARION

Must Not Sell Papers on Trains at Depot.

Union News Company Registers a Vigorous Protest with Local Depot Agent.

L. E. Nebergall, union depot agent has warned the local newsboys to discontinue selling papers on passenger trains where the union news company has a representative. It seems as though the news company has entered a vigorous "kick" to headquarters, and owing to the fact that the news companies pay for the privilege, their demands were sustained. Consequently hereafter city news boys will not be permitted to sell on any train unless the news company is not represented.

The local boys have the privilege of

selling about the platform, but dare not board the trains. The law in many respects seems an unjust one, owing to the fact that the news company trespasses upon the local boy's territory by leaving the train as it stands at the depot, and selling papers in and about the station.

The local "newsie" has the advantage of the news company representative, however, because he usually carries a larger stock of papers and then underbids them by two or three cents on the paper. Passengers will often purchase papers through the window from the city newsie rather than buy of the union news company who has agents on nearly every train that passes through the city.

Passenger men from this territory are attending a Central Passenger association at Chicago. It is the first held since the Erie announced its intentions of withdrawing and it is being watched with keen interest by railroad men throughout the country. It is reported that the organization will disband at the close of this session.

**Towns With Famous Names.**  
There are 27 cities and towns named Troy in the United States, 15 named Athens, 17 named New York, 16 named Rome and 15 named London. Only two states, Indiana and New York, contain towns bearing eight of the names. Ohio and Michigan contain seven each.

Such little matters as the qualities of thread used and the kind of buttons that are put on would seem insignificant, but they are worth mentioning because we maintain our qualities in these small points above those of any other trousers sold at equal price. We are enabled to do this by the fact that our factory system is an advantage which we use to offer better material than is possible by any other system for the same price.

You will never find any other trousers that contain all of the splendid features of which we show a new one in every advertisement. They give new conveniences, added proof of stability, fine work and beautiful finish—products of a factory system not found in any other trousers.

**NEW YORK C. KENYON CO. CHICAGO**  
Address all correspondence to the factory, 2474 Pacific Street, Brooklyn, N. Y.  
If you are interested in these trousers, please send your name, address and we will send you our handsome set of colored "Don't" pictures, entitled "Reveries of a Bachelor."

## POLO TEAM IS ASSURED

Marion Joins the Ohio League.

## QUINN CHOSEN MANAGER

Royal Rink Being Arranged for Indoor Game.

Lancaster and Marion will Enter Pennant Race at the Bottom—Meeting Sunday.

The terms under which Marion will enter the Ohio polo league were practically arranged and all of the financial details were settled at a conference held at Hotel Marion today between Frank Wilson, of Lancaster, and representative of the local rink company.

Both Lancaster and Marion will enter the league during the week of December 23 and will play two games each week until April 1. As the league has been in operation for several weeks, both Marion and Lancaster will enter as "cellar" teams and will be given the standing of the lowest team in the league at that time.

**BOBBY QUINN**  
Popular Ball Player Will Manage Polo Team.

Bob Quinn, the popular center fielder, of the Lane Burners of last season, will manage the team. Quinn is hard at work getting together a bunch of crack polo players, most of whom will be from the New England league. He will probably arrive in the city tomorrow and the players—six in number—will reach here next week. Quinn believes that despite the handicap he will be able to bring the team up among the leaders before the season is very advanced.

The rink is being arranged for polo and a seating capacity of twelve hundred is figured upon.

Representatives of all of the teams in the league and representatives of both Marion and Lancaster will meet at Mansfield on Sunday to arrange the schedule and to transact other business necessary.

In addition to the professional polo it is probable that a city league will be organized.

**Durable Juniper Wood.**  
Juniper is said to be the most durable of woods.

## PETITION FOR DIVORCE

Is Filed by Mrs. John Charter.

## WIFE CHARGES HUSBAND

With Extreme Cruelty—Would Like Alimony.

Thomas J. McMurray Asks That Partition be Made of Lots Owned by Goodnow Estate.

In the suit of Richard C. Dugan against Russell Harmon, the plaintiff, through his attorney, J. H. Eymon, has filed a reply to the defendant's answer and cross petition.

Dr. Dugan admits that he arranged to treat Mrs. Harmon but denies various allegations in the cross petition. He denies that he agreed to effect a cure and that if he did not effect a cure he would charge her nothing. He says that at the time Mrs. Harmon was brought to him he said that a permanent cure could not be effected but that she could be benefited. He told them, he says, that he would not think of taking the case unless it was agreed that the treatment should continue a year or more. The plaintiff asks for \$50 with interest from June 2, 1905.

The case of John Herr against the Marion National Bank was taken up in the court of common pleas, Wednesday afternoon and has been in progress all day today. This case is one growing out of the dealings of Charles E. Foster of Cleveland, who was here several years ago representing the Winslow Voting Machine company. Foster sold Herr stock amounting to \$1,000 and took Herr's note for the amount. Then he sold the note to the Marion National Bank. The bank later obtained judgment against Herr. Now Herr seeks to have the judgment set aside on the claim that the note was fraudulently obtained. He says that it was never really intended to locate the voting machine plant here.

DeGolley & DeGolley represent the plaintiff and W. C. Scofield and L. B. McNeal, the defendant.

Thomas J. McMurray filed a petition in the court of common pleas, Wednesday afternoon, naming as defendants the heirs of the late Josephus Goodnow. He says that he and Mr. Goodnow were tenants in common of two lots in Marion and he asks for a partition of his portion of the estate. The heirs are Elizabeth Herendeen, Fred W. Goodnow, Elizabeth Prentiss, Josephus Goodnow, Lucius Goodnow, Lafayette Goodnow, Sarah Goodnow, Cooper, Alice Goodnow, Frances Cobb, Charles A. Goodnow, Frank E. Goodnow, Willis E. Goodnow, Mabel Ettinghouse, Cleon Goodnow, a minor over 14 years of age, William A. Goodnow, if living, and if dead, Josephus Goodnow, a minor under 14 years of age.

The plaintiff, through his attorneys Mouser & Quigley, asks that a partition be made and that his share be set aside. Josephus Goodnow died in New York City, August 23, 1906.

Prosecuting Attorney John H. Clark went to Columbus Thursday to file in the supreme court a bill of exceptions in the case of Dr. C. C. Marsh, the neuro-magnetic healer recently acquitted on the charge of practicing without filing a certificate. The case will be pushed by the State Medical society.

John Charter is defendant in a suit for divorce started in the court of common pleas, Thursday morning by Mary Charter. They were married September 24, 1903, and there is one child, Milford, aged 3 1/2 years. Through her attorney, J. H. Eymon, Mrs. Charter charges her husband with extreme cruelty. She asks for a divorce, alimony and custody of her child.

**Building Had Many Uses.**  
An old brick laboratory in Middle-town, Conn., which was torn down recently, has been put to many uses since its erection in 1825. Originally it was a gunhouse, but it has since been used as a hospital, an eating house, a carpenter shop, an icehouse and an electrical laboratory.

**Need of Abundant Sleep.**  
Only by abundant sleep in favorable conditions can the worker indoors reasonably hope to rival the health of the fortunate outdoor man, whose life approaches the natural conditions in which the race was planned to thrive.

## MAKING AND LOSING FRIENDS.

Reflective Man Points Out Fault of the People of To-day.

"I'm not so sure," observed the doctor reflectively, as he watched the smoke curl upward from his cigar, "that we Americans are not neglecting one of the most important of the arts—the art of making friends. It wouldn't do anybody a bit of harm to take half an hour off and sit down to go over the accessions to his friends within the past year or so. Incidentally, he might reflect on what he has done in the way of keeping up old friendships. It seems to me that people drift apart very quickly nowadays. Absorption in business is one factor making for this; another is the growing disinclination to keep up any sort of correspondence, and a third is a tendency, increasing as the years go by, to let one's personal interest become more centered. All of these things militate against the making of new friends, as well as helping to loosen the bonds holding the old ones. The fault," he concluded, "isn't in the people whom we meet; it's in ourselves, and we might as well realize it. Let us look for likable qualities, and not the reverse. There is such a thing as being too cautious about our acquaintances, and thus shutting ourselves off from much pleasure and profit."

## QUEER NAMES USED IN CHINA.

Much the Same Idea as That of the North American Indian.

"We Chinese," said the law student, "give our children queer names. Our girls, for instance are not called Mabel, Jenny or Matilda, but Cloudy Moon, Celestial Happiness, Spring Peach or Basket of Perfumes. Our boys get less delicious names. Boys are made for work and wisdom, rather than for dancing and pleasure, and their names show this, as Practical Industry, Ancestral Knowledge, Complete Virtue, Ancestral Piety, Discreet Valor. To our slaves we give still another set of names. Yes, those dear, pathetic little slaves of ours, some girls, some boys, who do a hundred various little tasks about the house, these lowly creatures have names like Not For Me, Joy to Serve, Your Happiness and Humble Devotion."

## Up-to-Date Laundress.

Users of the telephone are becoming so numerous that it is not surprising to find one installed in almost every home, but it did seem rather an up-to-date affair for a negro to have one in the back room that comprised her "apartments." A woman who wanted an extra bit of washing done in a hurry had gone into the small alley in search of her "O, Miss Brown," said the washerwoman, "you needn't have come clear down here for me. I've got a telephone." And, sure enough, there sat one beside her. The astonished patron said: "But Lizzie, I thought you didn't wash for but three persons; do you need a telephone?" "Well, Miss Brown," said Lizzie, modestly, "I ain't got but three women to wash for, but I got a pretty daughter."—Philadelphia Record.

## The Face and the Emotions.

Habitual worry shows itself in the action of the facial nerve—the nerve of expression, as anatomists call it—producing lines which in course of time become permanent. The same is true of many other emotions and states of mind; and those which are dominant in the life of the individual will be long produce permanent changes in the face. The secret of the beauty which age cannot wither is to possess a beautiful mind, chin-strap and deplatories and electricity and massage and cosmetics are poor make-shifts compared with this.

## Family Life in France.

Modern France is the stronghold of the family system. See a French family at dinner in a restaurant, or for that matter, at home. You will never see a gayer, livelier function. There is such a frank and unassuming sense of community about the whole thing. The boys adore their mother, the girls their father, the parents take such a whole-hearted delight in their children, and the children are so happy and respectful. It is a sight of which every Frenchman may be proud.

## "Cash" and Domestic Rows.

"That money is the 'root of all evil'" is a maxim we all learned in our copy-book days. And 80 per cent. of newly-made wives discover to their astonishment that money worries, disputes over bills, and accusations of "extravagance" against the lady of the house are at the bottom of the clouds and thunder storms which rouse the honeymooners to the fact that "life is real, life is earnest," and not an unending chapter of connubial bliss, courting and kisses.

## An Unimportant Matter.

Reporter—Was the operation a success, doctor? Eminent Scientist—Oh, completely so! I demonstrated beyond dispute exactly what I contended all along. Reporter—Then the patient is all right? Eminent Scientist—The patient! The patient died. But why in the face of my triumphant vindication do you want these unimportant details?

## A Different Medium.

Huggins—That pretty little sculptress I met at your reception the other evening completely turned my head. Miss Peachley—Indeed! I knew she modeled in clay, but I wasn't aware that she worked in wood.

## Peoples' Transfer & Storage Co.

Phones 155

## Figure Up!

The amount of money you have lost by keeping your spare rooms vacant so long. A large sum is it not? Make up your mind that you will lose money no longer in this way. Have your ad inserted which will cost you 50 cents. In The Mirror for a week. Your room will then be rented. Cheap commission to pay, is it not? Phone ads to No. 2 other phone.
